

WANDSWORTH PERFORMANCE SUMMARY – 2020/21

Volumes

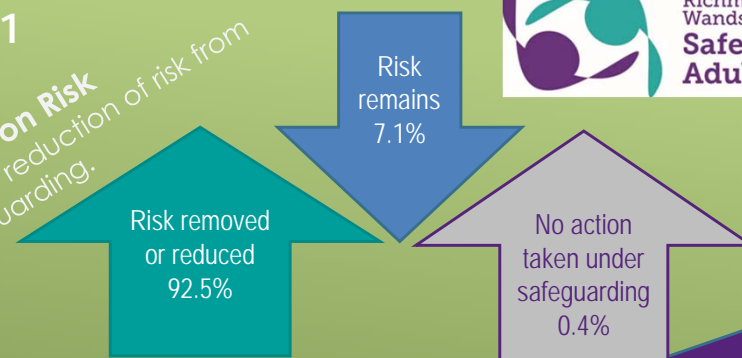

Volume of concerns has remained similar to last year, with number of concerns progressing to enquiries increasing slightly.

Provider quality
Good quality providers in Wandsworth, in line with London average. Noted no inadequate-rated providers.

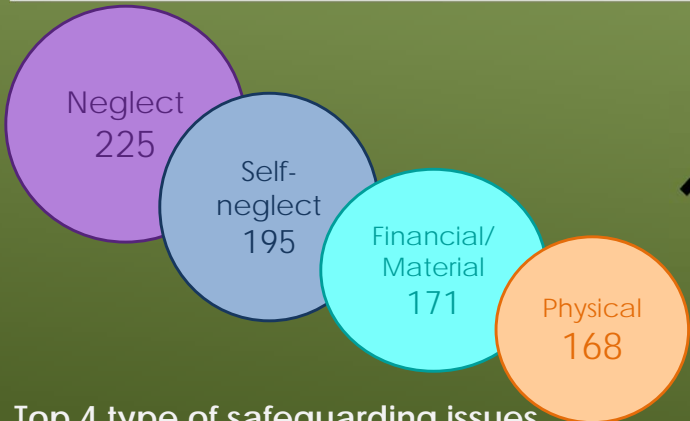

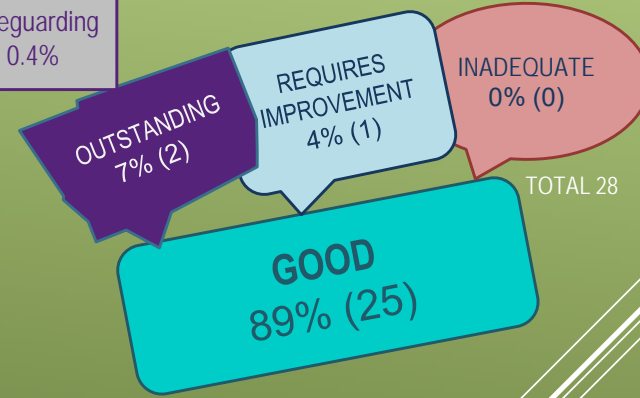

Impact on Risk
Positive reduction of risk from safeguarding.

97% met

Meeting Outcomes
Making Safeguarding Personal well embedded, with 97.2% of people's outcomes being met.

Top 4 type of safeguarding issues

Types of safeguarding issues comparable with last year, with notable increase to self-neglect cases from 144 in 2019/20 to 195 in 2020/21. This is likely due in part to the Covid-19 pandemic.

Home Fire Safety Visits

484 homes visited during the year. This is significantly lower than previous years (1907 in 2019/20) due to the COVID-19 restrictions in place throughout much of the year. Visits were triaged and only conducted following a robust COVID risk assessment.

Safeguarding Adult Reviews (SAR) referrals

5 referrals, 1 of which met the criteria. Five SARs commissioned previously were completed during the year.

LeDeR (Learning Disability Mortality Review)

All death notifications allocated. All reviews completed.
